Sir,

I have the honor to state that the town Municipal Council of Davangere on being asked whether they are prepared to employ their own Engineer to manage the water works, if one is lent from the Public Works Department, as such an arrangement would be more economical since they would save thereby 17 per cent on establishment charges discussed the matter in their meeting held on the 17th, September 1920 and resolved that they are quite agreeable to the proposal The estimates for the maintenance of the water works are reported to have risen from Rs15,940 in 17-18 to nearly Rs25 000/- for the current year I am of opinion that the Municipality would be much benefitted by the Government sparing an engineer to supervise and attend to the water works on the spot and also to other important work of the municipality I therefore request that Government may be pleased to pass early orders in the matter

The resolution of the municipal council on the subject is herewith forwarded for reference
